Reference list - Studies / Research projects-

Year	Location	Report	Content
2022	Germany	Study	Concept study and market analysis for the use of hydrogen and methanation at a biogas plant in Germany
2022	USA	Feasibility study	Feasibility study for the development and operation of a stillage-based biogas plant in the USA
2022	Germany	Feasibility study	Examination of the impact of the substitution of biowaste from municipal collection by commercial waste on existing plant and process technology in Germany
2022	Germany	Research project	Research project: Paper-derived ceramic supports for micoreactors for the chemical-catalytic methanation of CO2 (P2G-CatCarrier
2022	Germany	Feasibility study	Feasibility study on the fermentation of sugar beet pulp and sugar beet curd in Germany
2022	Poland	Feasibility study	Technical feasibility study for a biogas plant in Poland
2022	Germany	Study	Planning of a biogas plant for the fermentation of poplar wood in Germany
2021	Germany	Study	Study: Accompanying laboratory investigation on the yield of biogas from slaughterhouse
2021	Südafrika	Pre-Study	Preliminary study for an agricultural biogas plant in South Africa
2020	Slowakei	Study	Preparation of a study for the design and planning of a biogas plant for the fermentation of stillage in Slovakia
2020	Germany	Study	Study to evaluate two sites for a biowaste anaerobic digestion plant
2018 - 2023	Germany	Research project	Participation in the study and the research project CoAct: "Integrated site-land concept for the production of activated carbon and energy carrier from residual biomasses" (BMBF and FONA)
	Argentina	Study	Study on the digestability of thin stillage in Argentinia
2016	Germany	Study	Study on the concept development for thenpretreatment of biowaste
2014	Japan	Feasibility study	Study on the technical feasability of a prospective biogas plant in Japan
2014	France	Study	Preparation of studies on the fermentability of sugar beet pulp silage and vinasse in France
2013	Germany	Study	Investigation on the fermentability of solid waste of the sugar industry
	Japan	Study	Comparison of different biogas upgrading systems in Japan
		Technical-report	Technical report on a biogas concept for the digestion of organic waste in South Africa
		Technical-report	Technical Evaluation Report for a biogs plant in The Netherlands
2013	Denmark	Technical feasibility study	Technical feasibility study on a biogas concept for the digestion of by-products of a sugar factory in Denmark
2012	Germany	Study	Implementation and evaluation of a test operation for biowaste treatment for a sewage
2012	Finland	Study	treatment plant in Germany Study on dry fermentation in Finland
-	Germany	Study	Study on the use of the Gorator in biogas plants in Germany
-	China	Guidelines	Participation in developing a biogas guideline for Chinese biogas plant operators
2010	Serbia	Study	Study and preplanning of the re-startup of a cofermentation biogas plant in Serbia
		Olday	Study and preplanning of the re-startup of a colementation blogas plant in Serbia
2008		Technical-report	Implementation of a feasibility study on fermentation of banana waste in Panama
2008	Germany	Technical-report Study	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany
	Germany Germany	Technical-report Study Study	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany Preparation of a study on dry fermentation in Germany
2008	Germany Germany Germany	Technical-report Study Study Study	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany Preparation of a study on dry fermentation in Germany Study on a combined bioehanol-biogas plant in Saxony-Anhalt
2008	Germany Germany	Technical-report Study Study	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany Preparation of a study on dry fermentation in Germany Study on a combined bioehanol-biogas plant in Saxony-Anhalt Participation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ
2008 2008 2011	Germany Germany Germany Germany	Technical-report Study Study Study Research project	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany Preparation of a study on dry fermentation in Germany Study on a combined bioehanol-biogas plant in Saxony-Anhalt Participation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ 22014308"
2008 2008 2011 2008	Germany Germany Germany	Technical-report Study Study Study	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany Preparation of a study on dry fermentation in Germany Study on a combined bioehanol-biogas plant in Saxony-Anhalt Participation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ 22014308" Study on a biogas plant in Canada Preparation of a feasibility study for evaluation of the different options for the fermentation of
2008 2008 2011 2008 2008	Germany Germany Germany Germany Canada Germany	Technical-report Study Study Study Research project Study Technical-report	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany Preparation of a study on dry fermentation in Germany Study on a combined bioehanol-biogas plant in Saxony-Anhalt Participation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ 22014308" Study on a biogas plant in Canada Preparation of a feasibility study for evaluation of the different options for the fermentation of waste in Baden-Württemberg
2008 2008 2011 2008 2008 2008	Germany Germany Germany Germany Canada Germany Germany	Technical-report Study Study Study Research project Study Technical-report Study	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany Preparation of a study on dry fermentation in Germany Study on a combined bioehanol-biogas plant in Saxony-Anhalt Participation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ 22014308" Study on a biogas plant in Canada Preparation of a feasibility study for evaluation of the different options for the fermentation of waste in Baden-Württemberg Preparation of a study in Germany on fermentation of horse manure
2008 2008 2011 2008 2008 2008 2008 2007	Germany Germany Germany Germany Canada Germany	Technical-report Study Study Study Research project Study Technical-report	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany Preparation of a study on dry fermentation in Germany Study on a combined bioehanol-biogas plant in Saxony-Anhalt Participation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ 22014308" Study on a biogas plant in Canada Preparation of a feasibility study for evaluation of the different options for the fermentation of waste in Baden-Württemberg
2008 2008 2011 2008 2008 2008 2007 2007 2007	Germany Germany Germany Germany Germany Germany Germany Germany	Technical-report Study Study Study Research project Study Technical-report Study Study	Implementation of a feasibility study on fermentation of banana waste in PanamaPreparation of a study on marc-fermentation in GermanyPreparation of a study on dry fermentation in GermanyStudy on a combined bioehanol-biogas plant in Saxony-AnhaltParticipation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ 22014308"Study on a biogas plant in CanadaPreparation of a feasibility study for evaluation of the different options for the fermentation of waste in Baden-WürttembergPreparation of a study in Germany on fermentation of horse manurePre-Study on fermentation of sugar-beets in a biogas plantPreparation of a study on a technical comparison of main components of biogas plantsPreparation of a feasibility study for the extension of a biogas-plant
2008 2008 2011 2008 2008 2008 2007 2007 2007	Germany Germany Germany Germany Germany Germany Germany	Technical-report Study Study Study Research project Study Technical-report Study Study Study Study	Implementation of a feasibility study on fermentation of banana waste in PanamaPreparation of a study on marc-fermentation in GermanyPreparation of a study on dry fermentation in GermanyStudy on a combined bioehanol-biogas plant in Saxony-AnhaltParticipation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ 22014308"Study on a biogas plant in CanadaPreparation of a feasibility study for evaluation of the different options for the fermentation of waste in Baden-WürttembergPreparation of a study in Germany on fermentation of horse manurePre-Study on fermentation of sugar-beets in a biogas plantPreparation of a study on a technical comparison of main components of biogas plants
2008 2008 2011 2011 2008 2008 2008 2007 2007 2007 2005 2004	Germany Germany Germany Germany Germany Germany Germany Germany	Technical-report Study Study Study Research project Study Technical-report Study Study Study Technical-report	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany Preparation of a study on dry fermentation in Germany Study on a combined bioehanol-biogas plant in Saxony-Anhalt Participation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ 22014308" Study on a biogas plant in Canada Preparation of a feasibility study for evaluation of the different options for the fermentation of waste in Baden-Württemberg Preparation of a study in Germany on fermentation of horse manure Preparation of a study on a technical comparison of main components of biogas plants Preparation of a feasibility study for the extension of a biogas-plant Preparation of a study on mono fermentation of residues from the olive processing in a biogas
2008 2008 2011 2008 2008 2008 2008 2008	Germany Germany Germany Germany Germany Germany Germany Germany Spain	Technical-report Study Study Study Research project Study Technical-report Study Study Study Technical-report Study Study	Implementation of a feasibility study on fermentation of banana waste in Panama Preparation of a study on marc-fermentation in Germany Preparation of a study on dry fermentation in Germany Study on a combined bioehanol-biogas plant in Saxony-Anhalt Participation in a research project of the "Fachagentur für nachwachsende Rohstoffe" about mono fermentation of corn-silage grown on locations with different soil conditions. "FKZ 22014308" Study on a biogas plant in Canada Preparation of a feasibility study for evaluation of the different options for the fermentation of waste in Baden-Württemberg Preparation of a study in Germany on fermentation of horse manure Preparation of a study on a technical comparison of main components of biogas plants Preparation of a feasibility study for the extension of a biogas-plant Preparation of a study on mono fermentation of residues from the olive processing in a biogas plant in Spain
