

Krieg & Fischer Ingenieure GmbH

Krieg & Fischer Ingenieure GmbH is a globally operating engineering company with a focus on the planning and construction of biogas plants. The company has longtime experience in the field of biogas technology.

Currently, we are looking for a:

Process, Environmental, Energy or Civil Engineer

for the position of a project manager for biogas plants. This is a permanent, fulltime position at our office in Göttingen.

Responsibilities / tasks: Project management in Germany and abroad
Designs and tenders
Evaluation of quotations, preparation and assistance in the awarding of contracts
Acceptance of constructions and start-up at site
Documentation

Required Skills: University degree in the above mentioned fields or comparable qualification
Very good English language skills
Practical experience in project management
Flexibility and willingness to travel
Experience with common software products

Preferred skills: German language skills

The successful candidate will join a highly qualified, enthusiastic young team of engineers in an open and pleasant work environment. To learn more about our company, please have a look at our homepage www.kriegfischer.de. Your contact person is Mr. Raphael Thies.

Your application will of course be treated strictly confidential. Please send your application to:
